PRODUCT OVERVIEW

(Right Hand) Meets 2010 ADA Accessibility Standards and the needs of the physically disabled and elderly. Seat is 1/2" [13] thick, one piece solid, white colored, black core phenolic. Frame, support legs, flanges, and bracket are type 304 satin finish stainless steel. Phenolic seat ONLY is field reversible. Seat measures 33" [838] wide and projects 22-7/8" [581] from wall.

KEY FEATURES & SPECIFICATIONS

- L-Shaped - Right Handed - 33" [838] Wide - ADA Compliant- ADA Compliant
- Slotted Seat (for drainage) folds up when not in use - Requires only one hand operation to manually lower to horizontal position for use or raise for departure and arrival.
- Seat - White Phenolic / Body - Type 304 Stainless Steel
- Support load of 250 lbs to 500 lbs maximum if installed properly
- Surface Mounted
- Seat is Slotted for Drainage
- 33" [838] Wide

OPERATION & MAINTENANCE

Fold-up Shower Seat requires only one hand operation to manually lower to horizontal position for use or raise for departure and arrival. Guide bracket with spring detent prevents seat from dropping and provides positive support in usage position as well as spring locked storage position. Gas charged struts assist opening by allowing slowly lowering seat to operating position from storage and assist closing by self-raising seat from approximately 25° to 85° and providing partial extra push required to achieve fully stored position.

INSTALLATION

This unit is surface mounted. Installer/contractor must provide concealed anchor plate or blocking as specified in construction documents or as required by local building codes prior to wall finishing. Fasten unit flanges and guide bracket to concealed anchor or blocking plate with appropriate hardware. Note that concealed mounting plates or anchors and hardware are not supplied with this product and must be specified separately. Ensure that mounting configuration complies with local building codes.
